Why Join the PTSA?

1. The PTSA provides an opportunity for involvement by parents, teachers, students, and the community, and provides a forum for discussion of topics of general concern between school, home and the community.
2. The PTSA provides timely information from local, State and Federal levels and how we can advocate and influence legislators on behalf of children, families and schools.
3. The PTSA contributes a positive attitude to ensure the best possible education for our children.
4. The PTSA offers resources available from the State and National PTA to help the local units and its members.
5. The PTSA is the only organization whose sole focus is the education, health and safety of our children during their educational years.

Our PTSA is a positive link between school and home. We offer the opportunity for involvement in issues concerning our children. Anyone can be a PTSA member; and when those member's decisions are guided by a sense of responsibility for all children as well as their own, then we all truly become advocates for our future -- our children.
